Z

Ziff, Howard, *Sharing at the Five Colleges*, 12:4, 62

Colleges shouldn't have to choose between lighting their buildings and enlightening their students.

—Thomas Edison
 Inventor

Today, colleges all across America are being hurt by inflation. More and more of the money that used to go for microscopes, lab equipment and library books is now being consumed by basic necessities such as heating and maintenance. And my specialty—lighting.

What is most frightening is that this squeeze is coming at a time when we need all the trained minds we can get.

So please give generously to the college of your choice. The money you give will make everyone's future brighter.

Help!
Give to the college
of your choice.
